

# TANUJ DONTARAJU

Newark, DE · dtanuj@udel.edu · (302) 310-3352

## EDUCATION

---

### University of Delaware Honors College

B.S. in Computer Engineering

May 2029

Mid-Semester GPA: 3.9/4.0

Relevant Coursework: General Computer Science for Engineers, Introduction to Engineering, Analytical Geometry and Calculus A

## CLUBS / ORGINIZATIONS

---

Engineers Without Borders, CS + Social Good, DevLab App Development, Charity Crossing Volunteering Group

## EXPERIENCE AND PROJECTS

---

### Mercor

AI / Software Engineering Corporation  
Employee

August 2025 - Present

- Contributed to AI model training by curating and labeling datasets across image, text, and mixed data formats.
- Prepared, organized, and validated datasets to ensure data integrity, consistency, and suitability for high-performance model development.

### Poker Game Project

September 2025 - Septemer 2025

Github Link: <https://github.com/TanujDontaraju/Poker-Project>  
Independent Project

- Designed and implemented a fully functional poker game simulation in Python, integrating object-oriented programming, game logic, and UI interactivity.
- Developed and tested key modules including hand scoring, dealer decision-making, and randomized card dealing, ensuring accurate gameplay flow and fair outcomes.
- Utilized data classes and routing with the draftr framework to create an interactive, state-driven interface that tracks player score, dealer behavior, and round progression.

### Engineering Project - It's Chalked!

August 2023 - June 2024

Google Sites Link: <https://tinyurl.com/4t6bst4v>  
Group Project

- Collaborated with a partner to design and prototype a device aimed at minimizing gym chalk (magnesium carbonate) spillage by athletes, fostering a cleaner and healthier training environment.
- Utilized Fusion 360 (CAD) to create and refine 3D models, ensuring ergonomic design and efficient containment of excess chalk.
- Conducted iterative testing to evaluate usability, optimize chalk dispersion control, and enhance overall performance and respiratory safety for athletes with high levels of success.
- Presented the finalized prototype and findings to a panel of engineering experts within the Delaware area, receiving constructive feedback and professional validation.

### Personal Portfolio Webpage

May 2025 - Present

Github Link: <https://github.com/TanujDontaraju/Personal-Portfolio>  
Independent Project

- Developed a comprehensive personal portfolio website from the ground up using HTML and CSS showcasing technical web development skills
- Engineered dynamic and responsive UI/UX elements to create an engaging and intuitive user experience.
- Currently implementing a mobile/tablet functionality to ensure visual consistency across desktops, tablets, and mobile devices, along with email compatibility for communication purposes.

## SKILLS

---

Engineering Skills: Autodesk Fusion 360 (CAD), Autodesk Revit, VEX Robotics

Programming Skills: Python, JavaScript, Java, HTML, CSS

Currently Working Towards: AWS (Amazon Web Services) AI Practitioner, Proficiency in PyTorch and Tensor Flow
